that lead the world

FEATURES

32 Why Cannabis Edibles Are Creating a Buzz

by Margaret Malochleb

The ongoing legalization of cannabis, coupled with growing interest in the recreational and functional properties of infused edibles, has some food and beverage companies dashing to the drawing board to create new products that fill a growing niche while navigating complex regulatory and safety issues.

46 Frozen Foods Stage a Comeback

by Dale Buss

Driven by mounting interest among Millennials, along with innovative offerings from both startups and longtime category leaders, the market for frozen foods is heating up.

52 Biofilms: A Lifestyle Choice for *Listeria Monocytogenes*

by Elisma Ackermann

Research collaboration between academia and industry is shedding new light on how *listeria* biofilms respond to different sanitizers under flow conditions in a food processing environment.
